- ☆ The dock boxes are Fiberglass with white gel coat cover, of good quality, and will be available in three sizes depending upon the location of your boat slip.
- ☆ The dock boxes are intended to keep your equipment and gear off the walkways and finger slips and provide a convenient place to store these items.
- ☆ The dock boxes, which are available from the Harbor Master, provide the Marina with standardization of sizes, color and types. No other type of dock boxes are permitted in the Marina.
- ☆ Whether you rent or buy, the dock boxes will be installed and removed by the Harbor Master. If you rent and decide to purchase later, the rent paid will be applied toward your purchase price.
