

RECREATIONAL NON-MOTORIZED PATHWAY/TRAIL WEST SIDE SKI PARK

The City of Escanaba Recreation Department offers the public a year around trail system that can be used for a variety of non-motorized activities. Depending on the weather, this trail system of about 6.6 miles of various loops can be used for cross-country skiing and snow shoeing in the winter months, and biking, walking, or running in the summer months. The ski pathway will be groomed if snow conditions permit. Non-motorized trail sign and trail markers have been posted. The City of Escanaba will initiate active patrolling and will fully prosecute anyone found vandalizing and/or illegally dumping refuse at the site. The public is encouraged to report any type of illegal activity at the trail system to local authorities.

Trail heads are located on North 30th Street, Comfort Suite parking lot on Ludington Street and behind the Great Lakes Sports and Recreation Club off 19th Avenue North.

Donations for trail maintenance and grooming may be mailed to the Recreation Department at P.O. Box 948, Escanaba, Michigan 49829, or may be delivered to the Civic Center Recreation Department Office located at 225 North 21st Street, Escanaba, Michigan.

For more information regarding the City Pathway System or Ludington Park conditions, call the Recreation Department at (906) 786-4141.
