

## Notice Of Sewer Utility Work

Dear Homeowner/Rental/Business Owner:

Visu-Sewer has been contracted to reline the mainline sanitary sewer that your property is connected to. Relining allows for renewing the existing sewer without the inconvenience of conventional digging and relaying. *During this work, your sewer lateral will be temporarily disconnected from the main sewer.* Relining is normally completed in one day, within two shifts. The first shift crew installs the liner. The second shift crew reconnects the building laterals to the new liner.

To avoid problems, we need your cooperation. Reduce odors by pouring approximately one gallon of water down each of your floor drains and traps. **Use your toilet only if absolutely necessary and discontinue further use of all water including; washing machines, dish washers, bath tubs, showers and sinks on the following date:**

DATE: \_\_\_\_\_

TIME: \_\_\_\_\_ UNTIL \_\_\_\_\_

Visu-Sewer will not be held responsible for damage resulting from failure to comply with these procedures.

Thank you for your cooperation.

If you have any questions please feel free to call
