

**City of Escanaba  
Master Fee Schedule  
Fiscal Year 2017-2018**

The Master Fee schedule is a summary of fees for services that are provided to City of Escanaba residents and non-residents alike.

While the primary mission of government is to satisfy community needs, many City services solely benefit specific individuals or businesses. It is the City’s policy that the public at large should not subsidize activities of private interest through general tax and utility rate revenues. Fees that do not recover the full cost of providing the service result in subsidy which shifts funds away from other critical and high priority programs that may not have similar cost recovery options.

Fees are reviewed annually by the City Council and adopted by resolution (\*) as part of the budget preparation process (\* Unless otherwise stated in state or federal law, policy or procedure).
