FOR IMMEDIATE RELEASE

3RD AVENUE NORTH IMPROVEMENT PROJECT NEWS AND MEETING

ESCANABA, MI - - 03/09/18 - -

The 3rd Avenue North Improvement Project is scheduled to begin construction around July 9th and last through October. New concrete sidewalk ramps and certain sections of concrete sidewalk will be removed and replaced. The roadway surface will be removed in its entirety from Stephenson Avenue to just east of North Lincoln Road and replaced with new asphalt surface. During certain phases of construction, traffic through 3rd Avenue North will be limited to local traffic only. On two occasions the roadway will be closed to all traffic for two days each. Separate detour Routes on the north and south side of 3rd Avenue North will be established to accommodate vehicle traffic. This project will be completed at the same approximate time as the Michigan Department of Transportation project at 3rd Avenue North and North Lincoln Road. This MDOT project will realign the roadway lanes of traffic at 3rd Avenue North establishing a dedicated right and left turn lane.

There is a public meeting scheduled for Thursday, May 10th at 6:00pm at the City of Escanaba Public Works Complex located at 1715 Sheridan Road. Any concerns or comments can be brought forward at that time.
