

# REBATES FOR YOUR HOME

**Save energy, save money!** Escanaba's Energy Optimization program is offering new rebates and incentives to help you reduce your electric bills. Choose from a variety of instant in-store and mail-in rebates designed to help you save electricity where you use it the most: lighting, heating and cooling, and appliances.

## HOME ENERGY REBATES

Minimum energy standards apply. See online application for details.

### ENERGY STAR® Lighting

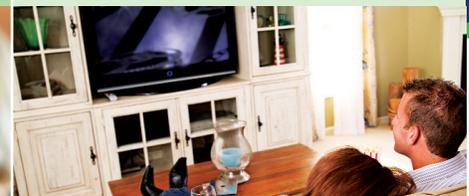

Save every time you flip a switch. These light bulbs and fixtures save up to 75% more energy than traditional options.

### Heating & Cooling

This typically accounts for 50% of energy costs. Control costs with a high efficiency furnace or central air system.

### ENERGY STAR® Appliances

Purchase qualifying energy efficient appliances to automatically save energy.

Product	Rebate	Product	Rebate	Product	Rebate
